PROFILE

Android developer experienced building consumer mobile apps with **Kotlin**, **React Native**, and **Flutter**. As founder of KribSavup / TGS Financial System, lead Android and cross-platform delivery for budgeting, credit, and homeownership-prep experiences—shipping clear UI, API-backed features, and production releases with engineering teammates.

ANDROID & CROSS-PLATFORM EXPERIENCE

Kotlin (Native Android)

- Build native Android screens and flows with Kotlin, Android SDK, and Material-style UI components.
- Implement activity/fragment (or Compose-ready) navigation for multi-step finance workflows: onboarding, budgeting tools, and progress tracking.
- Integrate REST APIs, handle JSON parsing, and manage app state for reliable offline/online user sessions.

React Native

- Deliver shared Android/iOS UI with React Native and JavaScript/TypeScript for faster feature iteration.
- Reuse component libraries across platforms while keeping Android-specific polish (navigation, gestures, store readiness).
- Connect mobile clients to backend services and AI-assisted guidance features used in KribSavup.

Flutter

- Prototype and ship Flutter/Dart screens for consistent Android UI with responsive layouts and smooth navigation.
- Use Flutter for rapid UI experiments (leaderboards, gamification, dashboards) before promoting stable flows to production.
- Collaborate with teammates on widget structure, state management, and release packaging for Android targets.

PROFESSIONAL EXPERIENCE

Android / Mobile Developer · Founder Feb 2020 – Present

Griggs Mutual Holdings, LLC · KribSavup / TGS Financial System
Eastvale, CA · Remote-capable

- Lead Android app development for KribSavup using Kotlin for native features and React Native / Flutter for cross-platform delivery.
- Ship consumer mobile experiences for credit improvement, budgeting, saving, and homeownership preparation.
- Design intuitive mobile UX for non-expert users; iterate based on community and partner feedback.
- Coordinate with developers on API integration, testing, Play Store-ready builds, and agile release cycles.
- Support AI-assisted in-app guidance surfaces that help users take clear next financial actions.

President / CEO — Mobile Technology Programs Feb 2022 – Present

Steward’s Mission, Inc. (501(c)(3))
Beaumont, CA

- Bring Android/mobile finance tools into community programs so participants can use the app the same day.
- Translate real user needs into mobile feature priorities across Kotlin, React Native, and Flutter workstreams.

Owner · Mortgage & Real Estate Broker Jan 2012 – Present

Griggs Mutual Realty & Management
Eastvale, CA

- 25+ years domain expertise informing Android product flows for credit, loans, and first-time homebuyer journeys.

General Manager Oct 1994 – Nov 2014

Commercial Door Company Inc.
Pomona, CA

- Led operations and multi-team delivery for 20 years—foundation for mobile product ownership and accountable shipping.
