PROFILE

Lead Full Stack Engineer with 8+ years shipping commercial SaaS and mobile products and 2+ years leading engineering delivery. Hands-on expert in **.NET / C#** backends, **Vue.js** and **React.js** front ends, and **React Native** cross-platform apps. Founder of KribSavup / TGS and builder of multiple live App Store, Play Store, and web platforms—architecture, mentorship, performance, and secure releases for regulated finance and enterprise-style workflows.

.NET · VUE · REACT · REACT NATIVE EXPERTISE

- **.NET / C#:** Design and implement ASP.NET Core APIs, domain services, GraphQL/REST contracts, MongoDB/SQL data layers, Dockerized microservices, and cloud deployments (AWS/Azure/GCP).
- **Vue.js:** Build SPA dashboards and billing/admin UIs (e.g. Blackwater Billing, Healthy Starts) with clean component architecture and API integration.
- **React.js / Next.js:** Deliver high-traffic web apps and PWAs (GetWaterFit, Charge Savvy, MyFuel, EveryChat, Guess The Move web) with performant UX and testable front-end patterns.
- **React Native:** Ship production iOS/Android apps from one codebase—Why Unified, TempConnect, KribSavup, Look N Lease, CRMGrow, TigerGenie, and more—covering auth, APIs, push, and store releases.
