Application Developer

Los Angeles Metropolitan Area Griggs Mutual Holdings, LLC [linkedin.com/in/timothy-griggs-81352b94](https://www.linkedin.com/in/timothy-griggs-81352b94) kribsavup.com

PROFESSIONAL SUMMARY

Application developer focused on building and shipping practical software for real users— web applications, internal tools, and finance-technology products. Founder of TGS Financial System / KribSavup, leading application design, feature delivery, and team coordination from requirements through release. Strong at turning business and community needs into working application features with clear UX and reliable delivery.

CORE SKILLS

Applications	Web apps, dashboards, admin tools, SaaS/MVP features, consumer-facing product flows
Development	JavaScript, TypeScript, React, Node.js, REST APIs, HTML/CSS, responsive interfaces
Data & Logic	SQL / PostgreSQL, MongoDB, application data models, business rules, integrations
Lifecycle	Requirements, prototyping, sprint delivery, testing/QA handoff, releases, maintenance
Collaboration	Team leadership, contractor coordination, stakeholder updates, milestone delivery
Domains	FinTech, financial literacy tools, education-to-action product experiences

EXPERIENCE

Application Developer / Founder

Present

TGS Financial System · KribSavup (formerly TGS) · Los Angeles, CA

- Designed and delivered KribSavup application features for budgeting, habit tracking, and actionable financial guidance.
- Built user-facing application flows and supporting backend/API work needed to run accounts, tools, and content experiences.
- Owned the application delivery cycle: scope features, prioritize backlog, review builds, and ship production updates.
- Led developers and specialists to implement application modules on schedule for live community and partner use.
- Improved usability for non-expert users so financial tools are easy to understand and act on quickly.

Application Lead — Community Technology Programs

Ongoing

Steward’s Mission · Los Angeles, CA

- Deployed finance application tools into community workshops and outreach so participants could start using software immediately.
- Gathered real-world application requirements from users dealing with budgeting, irregular income, and credit literacy challenges.
- Aligned product, content, and outreach teams so application updates matched program needs.

Principal — Application Delivery & Team Coordination

Ongoing

Griggs Mutual Holdings, LLC · Los Angeles, CA

- Directed application development, reporting, and supporting software workstreams with contractors and specialists.
- Defined scopes, milestones, and acceptance criteria to keep application releases predictable and reviewable.

- Maintained clear communication with stakeholders while managing concurrent application initiatives.

SELECTED APPLICATION WORK

- **KribSavup:** Consumer finance application for budgeting, habits, and guided next actions.
- **Admin / reporting tools:** Internal application support for finance-product operations.
- **Program-ready features:** Application experiences designed for same-day use after financial education events.

EDUCATION

Dominguez High School

Los Angeles area

ADDITIONAL

- Domain expertise in consumer financial wellness and community-facing technology applications.
- Comfortable owning application delivery while coordinating teammates across UI, backend, QA, and content.
- Available for application development engagements — hourly or fixed-price milestones.
