

Timothy Griggs

Desktop Developer · SwiftUI · React Native · Electron

Los Angeles Metropolitan Area Griggs Mutual Holdings, LLC [linkedin.com/in/timothy-griggs-81352b94](https://www.linkedin.com/in/timothy-griggs-81352b94) kribsavup.com

PROFESSIONAL SUMMARY

Desktop developer building cross-platform and native desktop applications with **SwiftUI**, **React Native**, and **Electron**. Founder of TGS Financial System / KribSavup, delivering finance-technology products from product requirements through UI, desktop packaging, and release. Experienced leading a development team to ship polished desktop experiences for real users and partners.

TECHNICAL SKILLS

SwiftUI	Native macOS desktop apps, SwiftUI layouts, navigation, state management, AppKit interop patterns, Mac App Store-ready packaging
React Native	Cross-platform desktop/mobile UI, React Native for Windows/macOS workflows, shared component libraries, native module integration
Electron	Windows/macOS/Linux desktop apps, BrowserWindow & IPC, secure preload scripts, auto-update, installers (NSIS / DMG), tray & menu UX
Frontend	JavaScript, TypeScript, React, HTML/CSS, responsive desktop UI, dashboards, admin panels
Backend / Data	Node.js, REST APIs, local & cloud data sync, SQL / PostgreSQL, MongoDB, auth flows
Delivery	Git, CI builds, desktop release pipelines, QA handoff, sprint leadership with teammates

EXPERIENCE

Desktop Developer / Founder Present

TGS Financial System · KribSavup (formerly TGS) · Los Angeles, CA

- Built and shipped KribSavup product experiences as desktop-ready applications using Electron and React Native-based UI patterns for finance tools users can run on day one.
- Developed macOS-oriented desktop interfaces with SwiftUI for native feel—navigation, forms, and clear financial-guidance workflows.
- Designed Electron app shells with secure IPC, window management, and installable builds for Windows and macOS stakeholders.
- Led developers and specialists to deliver desktop features, packaging, and release updates on schedule for community and partner use.
- Focused on accessibility and clarity so non-expert users can complete budgeting and money-habit actions without training friction.

Desktop Product Lead — Community Technology Ongoing

Steward’s Mission · Los Angeles, CA

- Brought finance desktop/web tools into workshops and outreach so participants could use software immediately on available devices.
- Translated real user needs (budgeting stress, irregular income, credit literacy) into desktop application requirements and UI priorities.
- Coordinated product, content, and technical teammates around shared desktop delivery goals.

Principal — Desktop Delivery & Team Coordination Ongoing

Griggs Mutual Holdings, LLC · Los Angeles, CA

- Managed desktop and application contractors for product builds, packaging, reporting tools, and supporting software workstreams.
- Defined scopes, milestones, and acceptance criteria for SwiftUI, React Native, and Electron deliverables.
- Kept stakeholder communication clear across concurrent desktop development initiatives.

SELECTED DESKTOP FOCUS

- **SwiftUI (macOS):** Native desktop UI for finance workflows and guided user actions.
- **React Native:** Shared UI components and cross-platform desktop/mobile feature delivery.
- **Electron:** Packaged desktop apps with IPC, installers, and multi-window product experiences.
- **KribSavup:** Consumer finance product delivered as usable software for community programs.

EDUCATION

Dominguez High School

Los Angeles area

ADDITIONAL

- Domain expertise in consumer financial wellness and community-facing technology products.
- Comfortable owning desktop delivery while coordinating teammates across UI, backend, QA, and packaging.
- Available for desktop development engagements — hourly or fixed-price milestones.
