Mobile Developer · AI Finance Agent

Los Angeles Metropolitan Area Griggs Mutual Holdings, LLC [linkedin.com/in/timothy-griggs-81352b94](https://www.linkedin.com/in/timothy-griggs-81352b94) kribsavup.com

PROFESSIONAL SUMMARY

Product-minded mobile and fintech builder focused on AI-assisted personal finance experiences. Founder of TGS Financial System / KribSavup, delivering consumer finance tools that help users budget, build healthier money habits, and act on financial guidance. Experienced leading mobile product delivery with engineering teammates—covering conversational AI flows, secure account experiences, and clear UX for non-expert users.

CORE SKILLS

Mobile	iOS / Android delivery, React Native / Flutter app workflows, mobile UX for finance products
AI Agents	LLM-powered finance assistants, prompt workflows, RAG for financial education content, chat UX
FinTech	Budgeting & money habits, financial literacy products, dashboards, community finance programs
Delivery	Product scoping, sprint leadership, QA handoff, API integration, release coordination with teams
Platform	REST APIs, cloud-backed mobile apps, analytics, secure auth patterns, App Store / Play readiness

EXPERIENCE

Founder & Product Lead — Mobile / AI Finance Present

TGS Financial System · KribSavup (formerly TGS) · Los Angeles, CA

- Led conception and delivery of KribSavup, a financial intelligence mobile/web product that helps users budget, track money habits, and take action on financial goals.
- Defined AI finance-agent style experiences: guided coaching flows, personalized recommendations, and educational content that convert “knowing” into consistent financial action.
- Directed a cross-functional development team (mobile, backend, content, video) to ship production features for real community and partner use cases.
- Partnered with Steward’s Mission and community organizations to distribute finance tools alongside digital-access programs across the Los Angeles area.
- Owned product roadmap, milestone planning, vendor/freelancer coordination, and quality standards for finance-facing user journeys.

Community Finance Technology Lead Ongoing

Steward’s Mission · Los Angeles, CA

- Brought KribSavup financial tools into community events and education programs so participants could start using digital finance support immediately.
- Collaborated with partners (including technology access initiatives) to connect device access with practical financial-wellness software.
- Translated real user needs—budgeting stress, irregular income, credit literacy—into clearer product requirements for mobile experiences.

Principal — Client Delivery & Team Coordination

Ongoing

Griggs Mutual Holdings, LLC · Los Angeles, CA

- Managed software, media, and reporting contractors for finance-product initiatives (course video, financial reporting, product support).
- Set delivery expectations, reviewed outputs, and kept multi-contributor workstreams aligned to product goals.

SELECTED PRODUCT FOCUS

- **AI Finance Agent concepts:** conversational guidance for budgeting, savings habits, and next-best financial actions.
- **Mobile-first finance UX:** simple flows for users who need clarity over complexity.
- **Education → action loop:** pairing financial literacy content with in-app tools users can use the same day.

EDUCATION

Dominguez High School

Los Angeles area

ADDITIONAL

- Strong domain expertise in consumer financial wellness, community finance education, and product storytelling.
- Comfortable leading distributed engineering teammates while owning client communication and outcomes.
- Available for Mobile Developer / AI Finance Agent engagements (hourly or milestone-based).
