## PROFILE

iOS developer experienced building and shipping App Store apps with **Swift**, **SwiftUI**, and **Objective-C**. Delivered production features across flight tracking, lifestyle/media, information hubs, and health/rewards apps—plus native iOS work for KribSavup / TGS Financial System. Strong focus on clean UI, stable networking, and App Store-ready releases.

## SELECTED APP STORE PROJECTS

### FlightView – Flight Tracker · Objective-C

[apps.apple.com/us/app/flightview-flight-tracker/id399057337](https://apps.apple.com/us/app/flightview-flight-tracker/id399057337)

- Built and maintained Objective-C / UIKit features for real-time flight tracking, status updates, and map-based travel workflows.
- Implemented networking, parsing, and resilient UI states for live flight data used by travelers worldwide.

### Tinsel & Tunes · Swift

[apps.apple.com/us/app/tinsel-tunes/id400586437](https://apps.apple.com/us/app/tinsel-tunes/id400586437)

- Developed Swift iOS features for a seasonal music/lifestyle experience with polished playback UI and content browsing.
- Improved app stability, media handling, and App Store release readiness using modern Swift patterns.
